

Integrity Statement for Waubonsee Community College

Waubonsee Community College believes that all members of the community have a responsibility to participate in learning with honesty and integrity.

Fundamentally, this principle asserts that all of us – teachers, students, staff, and administrators – must fulfill the commitments we make as we enter our academic endeavors, and we must respect the learning process. This respect includes but is not limited to:

- A commitment to working hard at learning, both in class and out of class,
- A sense of the value that all members of the learning community can bring,
- An honest undertaking of all tasks related to the college community.
